

EARTH LODGE ELIXIRS

The 2011 Master List

The flowers and crystals that abound on our Earth Lodge properties have asked to be made into elixirs and offered to the public for healing purposes. Flower and crystal elixirs are made from liquid mother essences of various flowers and gemstones to balance inharmonies on an emotional and spiritual level. Use them to heal the mind and to ease bodily discomfort stemming from emotional or spiritual issues. They are made using homeopathic dilution principles, and are safe for any age or size animal, whether human, horse, dog, cat or bird. Our flower and crystal essences are carefully prepared in an exacting way that preserves the essence or energy of the flower using pure spring water and vinegar. You can take them directly in the mouth, or add a few drops to drinking water. They can be taken every 15 minutes to relieve acute stress, or once or twice a day for to instigate long-term change and healing.

Single flower and crystal elixirs come in one ounce bottles with droppers, and cost \$9.50 each, regular combination formulas in 1 ounce bottles are \$14.50 each, or you may purchase a four ounce bottle which contains ALL Earth Lodge essences for just \$90.00. Working on an energetic level, essences remain dormant until they are needed, so that whichever ones are relevant at the time the combination is taken will be activated and work for the user. Custom blends of up to 10 may also be ordered in 4 oz. dropper bottles, for \$50.00. When you place your order for a custom blend, send an accompanying email to Maya (info@earthlodgeherbals.com) with your preferences listed (which essences and spray or dropper bottle).
